### AUTOMOBILE RACE TO BE RUN TO-DAY.

(By Associated Press.)

KILDARE. IRELAND, July 1.—Everything is now in readiness for the international automobile race for the James Gordon Bennett cup, which will start at 7. o'clock to-morrow morning. All diylong the countes of Carlow, Kildare and Queens, through which the course winds, have been overrun with numberless motors. At speeds varying from fitteen to sixty miles an hour, cars of all sorts and dscriptions have been flowing along the course, which is dotted with stands and warning flags and is lined at interesting points with spectators.

Great precautions have been taken to prevent casualities, but the broiling sun and the traffic of hundreds of motors, motor cycles and other vehicles have created a layer of thick dust on the course, the raising of which by the racing machines to-morrow will add a great element of danger to the contest.

Too Much Attention Being Desirable Virginia Plantation Given Tobacco

Prominent Virginians Criticise the Exposition Commission-What Becomes of the Snuff-Mr. Tullock May Sue.

The Times-Dispatch Bureau, No. 1417 G Street, N. W., Washington, D. C., July 1st. A very prominent Virginian who is in Washington to-day did some very emphatic talking concerning the nature of the Virginia exhibit it is proposed to ave at the St. Louis Exposition

voting all their energies towards having my opinion, and in the opinion of every

man with whom I have talked, tobacco men chiefly, this is absolutely foolish. Everybody who knows Virginia knows it is one of the great tobacco raising States of the Union. That is an old story. "Mr. Koiner, the Commissioner of Agriculture, must know this, and he, of all men, should know that thousands of people of the West and Northwest, anxious to find a more hospitable climate, are looking to the Southern States as desirable places of residence, where they may engage in stock raising, trucking and general farming.

"I wish the commissioners to pay particular attention to the features of the

"I wish the commissioners to pay particular attention to the features of the exhibit which will bring strongly before the world the resources of the State as a stock raising country and one suited to growing grain, and fruit. Such an exhibit would produce results, but one of which tobaccol was the chief feature would do the State no more good than were we to do nothing more at St. Louis than show miniatures of the Capitol at Richmond and old St. John's Church."

I have recently heard on several occasions exactly similar views concerning the Virginia exhibit. There is a most general opinion that the commissioners may make too much of a feature of tobacco, to the neglect of other and more important interests.

RALEIGH, N. C., July 1.—The trustees of St. Mary's College to-night elected McNeely Du Bose, now rector of Trinity Church, Asheville, as rector in charge of the college, to succeed Dr. T. D. Bratton, who becomes bishop of Mississippi. He is a native of South Carolina and a graduate of both the university and the elegical departments of Sewance, and is recognized as one of the most able Episcopal ministers in the South and possessor of special ability for the management of the great college which is the property of the Episcopal denomination of North and South Carolina.

The summer normal school at the Agricultural and Mechanical College opened to-night with 300 teachers enrolled. Welcome addresses were delivered by Dr. B. F. Dixon, State Auditor, on the part of Raleigh. The normal is a complete success.

The Arista Cotton Mills Company, of Winston-Salem was chartered to day. "I never knew where all the snuff manufactured in this country went to until a few months ago," said Mr. Alex. McMillan, clerk of the Supreme Court of Tennessee. to The Times-Dispatch correspondent at the New Willard to-day. "I was visiting a friend who owns an immense cotton farm on the Mississippi a, hundred miles below Memphis. I rode out over his farm with him one morning. He had hundreds of negroes at work in gangs of twenty-five, each gang under an overseer or foreman. Nearly every negro I saw was using snuff, and at every gang my host was rejuested by one or several of the laborers for an order on the farm store for snuff. The negroes do not use the snuff as our grandfathers did, that is, via the nose, but you will see one of them reach in his pocket, draw out a bag or box, take from it a wad of snuff as big as a hickory nut, and pulling out his lower lip, pack in the snuff around the gums, and then let the lip fly back on it. He will not want fresh snuff or an hour or two. In the mountains of Tennessee and North Carolina, and probably other Southern States, many women use snuff. and North Carolina, and propacy other Southern States, many women use snuff. They do so by first chewing the end of a dogwood switch a few inches long, and dipping this in the snuff and rubbing their teeth with it. That is called 'dipping.' Some of the most beautiful teeth I have ever seen have been in the heads of these fair 'dippers.'"

It is rumored to-Gay that S. W. Tulloch, ev-cashier of the Washington postoffice, will institute libel proceedings against ex-Posimaster-General Charles against ex-Posimaster-General Charles Emory Smith. Mr. Tulloch is the man who preferred charges against Mr. Smith's administration as Posimaster-General, charkes which appear to have been sustained by the investigations of postoffice inspectors, though Mr. Payne at first termed them "hot air." Mr. Smith, who is editor of the Philadelphia Press, published what he himself termed a "broadside" editorial on Mr. Tulloch in the Press of last Monday. In the course of the article he alleged Mr. Tulloch to he every kind of a liar known, oven in Washinston, and intimated that hereafter the expression, "lie like Annanias." would be, "lie like Tulloch." Mr. Tulloch has not made up his mind as in whether he will ask the court to give him damages for this effort of Mr. Smith to make a historical personage of him, but he is considering such a course. It was recently burned to the ground. Destroyed with it was much of Mr. Newman's waluable personal property. At present, however, there are a number of buildings on it as follows: One gray stone water tower and observatory, a large gray stone stable, having stall room for twelve horses, with rooms for vehicles, harness, grooms and stable boys; a large frame barn and training stable, with room for fifty horses, and room for grain, hay and attendants; six good tenant houses, two of them being nice residences, with barns

and outbuildings. On the property is a large artificial lake, handsome brown stone lodge, training track and several beautiful groves, in addition to other valuable timber.

The tract contains 1,3% acres of excelent land, some timbered, but much open, arable and very productive. The sale will be made by Messrs. C. J. Rixey, Jr., Culpeper, and George L. Browning, Madison, commissioners.

Since the cars have begun to run with regularity and safety to passuagers Rich-mond real estate sales will pick up very decidedly. It is expected that next week decidedly. It is expected that next week will bring some very attractive offerings of realty. A number of the agents have withdrawn sales and postponed dates indefinitely because of the tie-up of the street cars. These offerings will all soon be made.

in Pittsburg.

(By Associated Press.)

PITTSBURG, PA., July 1.—The trial of Dr. Walter P. Kountz for the killing of John E. Walsh, a wealthy contractor, on the evening of May 9th last, was begun before Judges McFarland and Brown, of the Criminal Court to-day.

Expected sensational developments caused the court-room to be crowded, many Janes being present.

Additional interest attaches itself to the case, owing to the part that Mrs. Kountz, the prisoner's wife, had in the affair.

At the time that Mr. Walsh was shot Mrs. Kountz was badly wounded. She recovered from her wounds, and has preferred a charge of felonious shooting against her husband. Mrs. Kountz, the only eye-witness to the triagedy, is not expected to testify in the trial which started to-day. She cannot testify for the Commonwealth, and it is not likely that she will be called by the defense.

Testimony was given to-day, snowing Kountz met Walsh and Mrs. Kountz Walsh and wounding Mrs. Kountz. Kountz then surrendered.
